Sitewide Treatability Studies - Solar Detoxification on hold.

S.G. Stiger, Associate General Manager
Environmental Restoration Management
EG&G, Inc.

Ref: N. M. Hutchins letter to J.M. Roberson, April 6, 1994

The Department of Energy/Rocky Flat Office (DOE/RFO) participated with EG&G, Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) to reprioritize the Sitewide Treatability Study Program for Fiscal Year 1994.

DOE/RFO agrees, after reviewing the data needs required to support future activities, that the Solar Detoxification study should be placed on hold for the following reasons: 1. The proposed cost share has grown. 2. The capabilities of the Solar Detoxification unit are the same as the unit currently at Operable Unit 1.

Contact Norma I. Castaneda at 966-4226 if you should have any additional questions regarding this letter.

Jessie Roberson
Acting Assistant Manager for
Environmental Restoration
